

# Industry Leader in Energy Management Solutions Space.

Geography: United Kingdom  
Headcount: 7,800  
Revenue: £1 Billion - £2 Billion

## ProtoCrawler Protocols

Our customer selected the following protocols from our marketplace, alongside some custom in-house protocols specific to their environment.

## Results and Benefits

### # Find More

Fuzz testing enables you to find unknown vulnerabilities that can't be identified through traditional testing.

### # Save Time

Testing is made easy with ProtoCrawler, allowing you to test within your available time and fix issues at the source.

### # Customise

Choose from pre-set tests or customise them to meet your exact requirements.

### # Flexible

New protocols? No problem. Add protocols from our marketplace or request any protocol directly.

### # Automate

ProtoCrawler can be embedded into your test automation workflow.

### # Reporting

Use our standard reporting, based on millions of tests, or customise it to meet any internal or external business requirements.
